

1. How does the project you planned connect to in-class efforts that foster deep learning?
2. How could the project you planned connect to the efforts of other functional areas in student affairs?
3. How could the project you planned connect to specific courses on campus?
4. How could you collaborate with the professors of those courses on assessment?
5. How could the assessment of the project connect to campus-wide assessment initiatives?
6. How could you disseminate findings from your assessment efforts to institutional colleagues?
7. How could you disseminate findings from your assessment efforts to colleagues at other institutions?
8. What are the resources available at your institution that would assist you in facilitating, assessing, and presenting the project?
9. What are the challenges present at your institution that would impede the project?
